

KODLAND COOKIE POLICY

Effective Date: July 1, 2026

Effective Date	July 1, 2026
Applicable Law	COPPA (15 U.S.C. §§ 6501–6506, 16 C.F.R. Part 312, as amended 2025) · CCPA/CPRA · Virginia VCDPA, Colorado CPA, Connecticut CTDPA, and comparable state comprehensive privacy laws · CalOPPA · CAN-SPAM Act · TCPA
Scope	United States, including all states and territories
Primary Data Controller / Business	Odreval Limited (Cyprus)
Joint Data Controller / U.S. Payment Entity	Kodland Inc (Wyoming, USA)
Privacy Contact	social@kodland.org
Related Document	Privacy Policy — available at kodland.org

This Cookie Policy explains how Kodland uses cookies and similar tracking technologies when you visit our website, registration pages, and online learning platform. It should be read together with our Privacy Policy, which explains how we handle your personal data and protect the privacy of our child learners.

1. What Is This Policy?

This Cookie Policy explains how Kodland (“we,” “us,” “our”) uses cookies and similar tracking technologies when you visit our website, registration pages, and online learning platform.

2. Our Commitment to Children's Privacy

Because we provide online coding lessons for children, we apply a strict Privacy by Default policy to tracking technologies, consistent with the Children's Online Privacy Protection Act (COPPA) and the enhanced protections described in our Privacy Policy for all learners aged 5–17, regardless of state of residence.

Privacy by Default — Our Three Commitments

- **No tracking on the learning platform:** We do not use marketing, advertising, or profiling cookies within the student platform or during online lessons.
- **No behavioral advertising for minors:** We never track child or teen learners in order to serve them targeted advertising.
- **Parent-facing pages only:** Analytics and marketing cookies are strictly limited to parent-facing pages (such as our marketing website and registration forms) and are placed only where permitted by applicable law.

3. What Are Cookies?

Cookies are small text files placed on your device (computer, smartphone, or tablet) when you visit a website. They are widely used to make websites work efficiently, provide secure logins, remember preferences, and help site owners understand how their site is used.

We also use similar technologies such as web beacons, pixels, and local storage, which we refer to collectively as “cookies” in this Policy.

4. Types of Cookies We Use

We use four categories of cookies. Only Strictly Necessary cookies are placed by default. For the other categories, we offer you a choice through the tools described in Section 6, consistent with applicable state law.

Category	Purpose	Where Used	Your Choice
Strictly Necessary	User authentication, security, network management, load balancing, and remembering your privacy choices. Essential for the website and platform to function. Cannot be disabled.	All pages	Not applicable — exempt
Functional / Preference	Remembering selected language, time zone, region, and display preferences to provide enhanced, personalized functionality.	Parent-facing pages	Can be managed via our cookie settings tool
Analytics & Performance	Counting visits, identifying popular pages, and detecting technical errors. Helps us understand how visitors use the site, using de-identified, aggregated information.	Parent-facing pages only	Can be opted out of via our cookie settings tool
Marketing & Targeting	Measuring conversion rates from advertising campaigns and limiting repeat display of the same ad. Placed by third-party advertising partners. Strictly limited to parent-facing marketing pages. Never used in child-facing areas.	Parent-facing marketing pages only	Opt-out of “sale”/“sharing” honored via cookie settings and Global Privacy Control (GPC)

Important — Marketing Cookies

Marketing and targeting cookies are used only on parent-facing marketing pages. They are not deployed in child-facing areas of the platform, during learning sessions, or on lesson-related pages. We enforce this restriction through platform configuration, cookie consent-management tooling, and internal configuration controls, and we periodically review our cookie settings to confirm marketing cookies remain confined to parent-facing contexts.

5. Third-Party Cookies

Certain third-party service providers may place cookies or similar technologies on our website. For example, we may use third-party analytics providers to measure website traffic, and secure payment gateways may use essential cookies for fraud prevention during checkout.

Where third-party advertising or measurement cookies are used on parent-facing pages, the relevant third-party providers may process cookie-related data in accordance with their own privacy notices. Depending on the service and configuration used, some of these providers may act as independent businesses for their own cookie data.

We do not permit third-party advertising platforms to receive children's personal data from the student platform, online lessons, or any child-facing area of our services.

6. How to Manage Cookies

We believe you should have meaningful control over your data. Rejecting non-essential cookies will never affect your child's ability to use the learning platform.

6.1 Using Our Cookie Management Tool

You can manage your cookie preferences at any time using our Consent Management Platform or cookie settings tool.

Cookie Management Module

- **Accessing settings:** You can access our cookie management tool via the cookie settings link or icon available on our website.
- **Reviewing and changing choices:** You can use the tool to review or change your cookie preferences at any time.
- **Fair choice:** Where non-essential cookies are offered, we present “Accept All” and “Reject All” with equal prominence and without misleading design patterns.
- **No pre-checked boxes:** We do not use pre-checked boxes for non-essential cookies.
- **No impact on the core service:** Rejecting non-essential cookies will never affect your child's ability to use the learning platform or access course content.

6.2 Global Privacy Control (GPC) and “Do Not Track”

Where your browser or device sends the Global Privacy Control (GPC) signal, we honor it as a valid opt-out request under applicable state law for the sale or sharing of personal information collected through cookies. Consistent with the California Online Privacy Protection Act (CalOPPA), our website does not currently respond differently to the older browser “Do Not Track” signal, but we do honor GPC as described above.

6.3 Browser Settings

Most web browsers let you control cookies through your browser's preference settings. You can set your browser to refuse all cookies or to alert you when a cookie is being sent.

Browser	Cookie Settings Link
Google Chrome	support.google.com/chrome/answer/95647
Mozilla Firefox	support.mozilla.org — Enable and disable cookies
Apple Safari	support.apple.com/guide/safari — Manage cookies and website data
Microsoft Edge	support.microsoft.com — Microsoft Edge browsing data and privacy

7. Your State Privacy Rights Related to Cookies

Cookies collected on parent-facing pages may constitute personal information under applicable state comprehensive privacy laws (e.g., CCPA/CPRA, VCDPA, CPA, CTDPA, and comparable laws in other states). We do not sell cookie-related data. Depending on your state, using marketing and targeting cookies for cross-context advertising purposes may constitute “sharing,” and you may opt out of it at any time using the cookie settings tool described in Section 6, or by enabling Global Privacy Control.

Nevada residents: Nevada law (NRS 603A) provides a separate right to opt out of the sale of certain categories of personal information to third parties. As stated above, we do not sell personal information; Nevada residents may still submit a verified request to social@kodland.org, subject line “Nevada Opt-Out Request.”

We do not sell or share cookie data relating to child learners, regardless of their state of residence. For a full description of your privacy rights, see Section 16 of our Privacy Policy.

8. Updates to This Policy

We may update this Cookie Policy from time to time to reflect changes in technology, legislation, or our data practices. Any changes will become effective when we post the updated Policy on our website.

9. Contact Us

If you have questions about our use of cookies or about this Cookie Policy, please contact our Privacy Team:

Email	social@kodland.org
Postal (Odreval Limited)	Boumpoulinas 1-3, Bouboulina Building, Flat/Office 42, 1060 Nicosia, Republic of Cyprus
Postal (Kodland Inc)	30 N Gould St Ste R, Sheridan, WY 82801, USA — please email rather than write, as this is a registered-agent address, not a staffed office

Appendix A. Cookies — Explained Simply

This page is for young learners aged 5–17. Ask a parent or guardian if you have any questions.

What is this about?

When you visit a website, tiny helper files called “cookies” help make things work — like remembering which language your parents picked. This page explains how Kodland uses cookies and how we keep things safe for you.

Do cookies watch what you do in class?

No. On the learning platform, we do not use cookies to watch you, track you, or show you ads. Nothing like that happens while you are in a lesson or doing your coursework.

Where are cookies used, then?

Some cookies are used only on the pages that grown-ups use — like the website where your parents or guardians sign you up for classes. Those cookies help us understand how the website is used. They are never allowed on your lesson pages.

Your rights

Your parents or guardians can review or change cookie choices at any time using the cookie settings on our website. Saying “no” to extra cookies will never stop you from using your lessons.

Questions?

Ask your parents or guardians, or they can email us at social@kodland.org. We are always happy to help.
